THE ARTIST

Ocean

Visual artist

Miami born and raised, Los Angeles raised again, Kansas City living.

Ocean's work centers on a repeating painted structure he calls the SignatureWave™ pattern, a way of translating the invisible language of energy into physical form. Light. Sound. Radio. The frequencies that move through a day, made visible.

Each painting is made in a single sitting and reflects the state present at that exact moment. There are no reproductions. If the energy is not there, the work does not exist.

The act of painting is meditative. Standing in front of a canvas, the pattern becomes a direct record of what was moving through him at the time.

*"If you have ever looked at one of my pieces and felt something shift,
it is because our energies connected in that moment. That is not
accidental. That is the work."*

— OCEAN

THE WORK

Three frequencies, one language.

Light

The frequency of visibility. How energy becomes something the eye can hold. These works trace what is seen in a single charged moment.

Sound

Rhythm made physical. The pattern moves the way sound moves through a room, felt before it is understood.

Radio

The frequencies that never stop moving through us, even unseen. A translation of the signal underneath everything.

MATERIALS

Built to move.

Ocean works with fluorescent and glow-in-the-dark pigments, adding a dimension that shifts under different light, not just to look at. Every piece is built from vibrant, dynamic color and its movement, applied by hand in a single sitting. Nothing is planned in advance and nothing is touched up after.

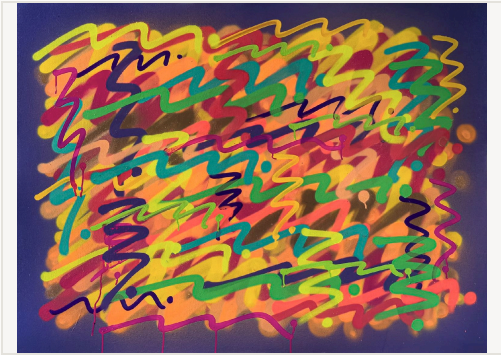

No two works share a pattern. Each is a direct record of the moment it was made, not a variation on a theme.

APPLIED ART

Not every Canvas, is a canvas.

Some commissions aren't paintings on canvas at all. Ocean also creates work directly on objects and surfaces outside the traditional canvas, from wheels to full vehicles, priced separately and confirmed case by case.

From a single wheel to a fully wrapped vehicle, each Applied Art commission is scoped individually based on the object and the work involved. Ocean travels on-site to create the piece directly, the same way an on-location canvas commission comes together.

COMMISSIONS

A work made for your space.

CUSTOM CANVAS

\$100 / sq ft

Hand-painted in a single sitting and sized to your space. Every commission is unique, no reproductions. Choose a size, confirm the concept, and Ocean paints it once, for you.

AVAILABLE NOW

Prefer something already finished?

Select works are already painted and ready to ship, each individually priced rather than calculated by the square foot. See Selected Work for current availability and set pricing.

A non-refundable deposit secures a commission. Once started, it is set for completion.

ON-LOCATION COMMISSIONS

A work made in your space.

Ocean travels to you and creates the piece live, on-site, so the space itself becomes part of what gets made. It is the most literal version of what the SignatureWave™ pattern has always been about: a record of a real moment, made real.

PRICING

From \$3,000

Plus the piece itself. Applied Art (objects, vehicles) priced separately and confirmed case by case.

01 — REACH OUT

Share your space or object, and what you're imagining.

02 — CONSULTATION

Ocean confirms scope, timeline, and pricing directly.

03 — TRAVEL & SCHEDULE

Logistics are arranged around your location. Ocean travels US-wide.

04 — CREATED ON-SITE

The work is made live, in your space, capturing that moment directly.

A non-refundable deposit secures a commission. Once started, it is set for completion. Travel is subject to delays outside Ocean's control; short-notice cancellations may leave the buyer responsible for non-refundable travel costs.

Bring the frequency into your space.

Whether on canvas or on location, every piece starts the same way: a real moment,
translated into something permanent.
